CERTIFICATION PATHWAY

Upon successful completion of all three levels, participants will be
awarded with

**CERTIFIED SUPPLY CHAIN MASTERY
(CSCM)**

Supply Chain Management Body of Knowledge (SCM-BoK)

Supply Chain Management Body of Knowledge (SCM-BoK) serves as the academic and industry-aligned foundation for all certifications offered under Bryndell's training ecosystem. It outlines standardized knowledge areas, skill domains, and core competencies essential for logistics and supply chain professionals. Developed by academic scholars and industry consultants, SCM-BoK ensures each program is built on a globally relevant, practical, and future-ready structure. All training content, assessments, and case applications are mapped to SCM-BoK, guaranteeing consistency and credibility across all certification levels.

CSCM Online Interactive Training

Get trained by industry experts through live, interactive online sessions designed for real-world application.

Total Duration: 60 Hours

Mode: Online (Live & Interactive)

Sessions Include: Concept Lectures, Case Discussions, Tools Training & Mock Tests
