# About

Bryndell Business Solutions Pvt Ltd is a dynamic consulting and training firm specializing in end-to-end supply chain transformation. We provide strategic consulting services to optimize operations, alongside industry-aligned training and globally recognized certifications to develop skilled supply chain professionals. With a strong academic interface, we collaborate with institutions to design curriculum frameworks, develop customized learning content, and bridge the academia-industry divide. Our expertise spans across functional training, capability building, and consulting-led execution, enabling businesses and individuals to thrive in a competitive, digitally evolving landscape. At Bryndell, we shape the future of supply chain excellence with precision and purpose. We empower professionals with real-world tools and domain knowledge to lead transformation in logistics and supply chains.

Join our network of industry leaders, certified experts, and academic partners driving next-gen supply chain innovation.

# Vision

To be a globally trusted catalyst in shaping the future of supply chain excellence by empowering individuals, transforming businesses, and seamlessly bridging the gap between academia and industry.

# Mission

To provide strategic consulting and training that enhance operational efficiency and business performance

# CONSULTING

Bryndell Business Solutions Pvt Ltd delivers expert consulting to streamline and digitize supply chains. We offer SOP development, transformation roadmaps, and operational audits to boost efficiency, agility, and resilience across logistics, warehousing, and distribution.

# Bryndell Academy of Supply Chain Excellence (BASE)

**BASE**  
BRYNDELL ACADEMY  
OF SUPPLY CHAIN  
EXCELLENCE

BASE, the training division of Bryndell Business Solutions, offers industry-aligned programs, certifications, and customized learning for students and professionals. As a Centre of Excellence, it drives supply chain capability through curriculum design, training, and academic partnerships. BASE bridges classroom learning with real-world application, building a future-ready workforce.

# Supply Chain Management Body of Knowledge (SCM-BoK)

Supply Chain Management Body of Knowledge (SCM-BoK) serves as the academic and industry-aligned foundation for all certifications offered under Bryndell's training ecosystem. It outlines standardized knowledge areas, skill domains, and core competencies essential for logistics and supply chain professionals. Developed by academic scholars and industry consultants, SCM-BoK ensures each program is built on a globally relevant, practical, and future-ready structure. All training content, assessments, and case applications are mapped to SCM-BoK, guaranteeing consistency and credibility across all certification levels.
